In its fourth year, the Heritage at Risk Register now includes grade I and II* listed buildings, listed places of worship, scheduled monuments, registered parks and gardens, registered battlefields, protected wreck sites and conservation areas known to be at risk as a result of neglect, decay or inappropriate development. This year, for the first time, we have published a list of 'priority sites': important heritage at risk sites where we will focus our resources to secure their futures.

"Information is not knowledge" mused Albert Einstein; meanwhile, in similarly thoughtful mode, Anton Chekhov stroked his beard and averred "knowledge is of no value unless you put it into practice". So whither the latest version of the Heritage at Risk Register in light of these caveats and what is English Heritage doing to avoid data collection without purpose?

Since 1998, the Register has grown from identifying grade I and grade II* buildings at risk to become a universal resource covering a range of heritage assets overground, underground and even under the sea. The 2011 version introduces listed places of worship known to be at risk. The Register is an ongoing work; the art is to weave in refinement whilst employing it as a tool to protect cherished historic fabric. That fabric could be rusting ironwork, as at Tynemouth Railway Station or vegetation-ravaged stonework on Overgrass Tower House, a reminder of the North East's border battleground past. These are two very different sites in scale, individual history and type of urgent work required to conserve them, yet they share a common factor in being included on the Register; a vital criterion in the decision-making process used when allocating English Heritage funding.

The concept of "partnership working" is fundamental. In the cases at Tynemouth, Overgrass and others, such as repairs to houses on the Ralph Erskine-designed Byker Estate, the ability of English Heritage to liaise with a wide array of individuals and organisations is imperative to the ignition, maintenance and ultimate success of a project. More co-operative working is embodied in the Heritage Partnership Agreement between English Heritage and the owner of a sizeable collection of scheduled monuments situated within a large swathe of Ingram Valley, Northumberland. Discussion and

co-operation has produced a cohesive plan for the repair and future maintenance of the very different assets at Byker and Ingram Valley. The £233,933 of English Heritage grant aid it has taken to support these schemes is excellent value for money considering the gains in long-term protection and use of our heritage.

Despite these successes, warning bells are sounding. Over the past four years, the percentage of designated heritage assets at risk in the North East has fallen steadily from 7.4% in 2008 to 6.3% in 2011. Warning bells? Good news, surely? Well, the fact remains that, at 6.3% (compared to the national average of 3.0%), the North East still has the biggest percentage of its grade I and II* buildings at risk. And, whilst a recent survey showed that the region's stock of places of worship is in generally good repair; fifteen have been assessed as being in poor or very bad condition with an estimated £2.9m required to repair them.

A total of £1.6m in grant aid was offered to sites in the North East during 2010/11; positive news derived from persistent, constructive liaison with many stakeholders. The very real danger is that the current squeeze on public and private sector resources, both human and monetary, will, in time, undermine this effort and see a reversal of many of the recent positive trends. It is at this point that the caveats expounded by Chekhov and Einstein will be very stark: we will have information but increasingly limited means to convert this into applied knowledge. Good news for rust and tree roots; bad news for iron and stone.

Carol Pyrah, Planning Director
NORTH EAST

BUILDINGS AT RISK

- Nationally, 3.0% of grade I and II* listed buildings are at risk. In the North East this rises to 6.3%, representing 72 sites.
- 8 sites have been removed from the 2010 Register, but 4 have been added.
- 56% of entries (64 buildings) on the baseline 1999 Register for the North East have been removed as their futures have been secured, compared to the national figure of 53% (757 buildings).
- Nationally, £5.2m was offered to 71 sites on the Register during 2010/11. In the North East we awarded grants totalling £691k to 13 sites.
- 15 listed places of worship have been added to our Register this year. We estimate the cost of repairing these buildings is £2.9m.

SCHEDULED MONUMENTS

- 16.9% (3,339) of England's 19,748 scheduled monuments are at risk, compared to 13.4% (184 sites) in the North East.
- In the North East, 16 sites have been removed from the 2010 Register, but 6 sites have been added.
- 11.8% of entries (20 sites) on the baseline 2009 Register for the North East have been removed due to positive reasons, compared to the national figure of 11.9% (399 sites).
- Arable ploughing and unrestricted plant, scrub or tree growth account for nearly two thirds of sites at risk nationally. In the North East, the latter is responsible for 41% of sites at risk.
- Nationally, 82% of scheduled monuments at risk are in private ownership, this rises to 85% in the North East.
- Of the £357k offered by English Heritage to owners of scheduled monuments at risk in 2010/11, £55k was to 6 sites in the North East.

REGISTERED PARKS AND GARDENS

- 103 of England's 1,610 registered parks and gardens are at risk, an increase from 6.2% (99) in 2010 to 6.4% this year. In the North East, 3 of our 54 sites are at risk (5.6%).
- Nationally, 6 sites have been added and 2 removed from the 2010 Register. In the North East, 1 site has been added.

REGISTERED BATTLEFIELDS

- Of the 43 registered battlefields in England, 6 are at risk, 2 less than the 2008 baseline.
- Of the 6 registered battlefields in the North East, 1 is at risk.

PROTECTED WRECK SITES

- Of the 46 protected wreck sites off England's coast, 7 are at risk, 3 less than the 2008 baseline. There are no protected wreck sites off the coast of the North East.

CONSERVATION AREAS

- 288 local planning authorities (86%) have taken part in the national survey of conservation areas, of which 13 are in the North East. This is all our local planning authorities.
- We now have information on the condition of 7,841 of England's 9,600 designated conservation areas and 516 (6.6%) are at risk.
- Of the 265 conservation areas surveyed in the North East, 16 (6%) are at risk.

INDUSTRIAL HERITAGE

Britain was the world's first industrial nation and has a wealth of industrial heritage but many industrial sites have been lost or are at risk due to functional redundancy. Our survey has shown that the percentage of listed industrial buildings at risk is three times greater than the national average for listed buildings at risk.

The conservation of industrial sites can pose considerable challenges. However, industrial sites often have great potential for re-use. Our research shows that the best way of saving industrial buildings is, where possible, to find an adaptive new use. We know this isn't easy, and is not always possible, but we hope those who own or are thinking of developing an industrial building will find our new web pages an invaluable source of information.

Voluntary groups and owners have saved a number of key industrial sites, often sites which contain working machinery. However, research has shown that many of these groups need support to encourage more and younger members to achieve the rescue of the site.

Building preservation trusts can provide the answer for industrial buildings where there is no apparent commercial solution by repairing the site and then selling it, or retaining and letting the space.

What we know

- 4% of listed buildings and scheduled monuments are industrial
- Nationally there are proportionally more grade II* industrial listed buildings than grade II (4.6% compared to 4.4%)
- 10.6% of industrial grade I and II* listed buildings are at risk, making industrial buildings over three times more likely to be at risk than the national average for grade I and II* listed buildings
- The average estimated conservation deficit (cost of repair in excess of the end value) of industrial buildings at risk is twice that of non-industrial buildings at risk
- About 10% of industrial buildings at risk are economic to repair, compared to 13% of non-industrial buildings at risk
- Approximately 40% of industrial buildings at risk are capable of beneficial use, compared to 44% of non-industrial buildings at risk
- 10.9% of industrial scheduled monuments are at risk, making industrial scheduled monuments less likely to be at risk than the national average for scheduled monuments
- 3% of conservation areas were designated because of their industrial significance
- Industrial conservation areas in the North West and West Midlands are over twice as likely to be at risk than the national average
- In the last 10 years, English Heritage has offered grants totalling £25m to industrial sites

HYDRAULIC SILO, CRAGEND FARM, NORTHUMBERLAND
Abandoned Experiment – this hydraulic silo is the legacy of a rare failed experiment by the great industrialist Lord Armstrong.

What are we doing?

- Providing new guidance for owners on maintaining vacant historic buildings.
- Publishing a developers' portal on the English Heritage website where advice for all types of heritage asset including industrial sites can be found.
- Funding a new Industrial Heritage Support Officer, who will build capacity for industrial museums.
- Publishing an industrial themed issue of Conservation Bulletin in October 2011.
- Supporting a new Architectural Heritage Fund grant scheme which aims to encourage local groups to take on industrial buildings.
- Publishing an updated Stopping the Rot: a guide to enforcement action to save historic buildings.
- Using the National Heritage Protection Programme (2011-2015) to shape an industrial designation programme.

If you are a developer, member of a building preservation trust, work in a local authority, own a visitor attraction or have an interest in England's industrial heritage, visit our website for more information:

www.english-heritage.org.uk/industrial-heritage-at-risk

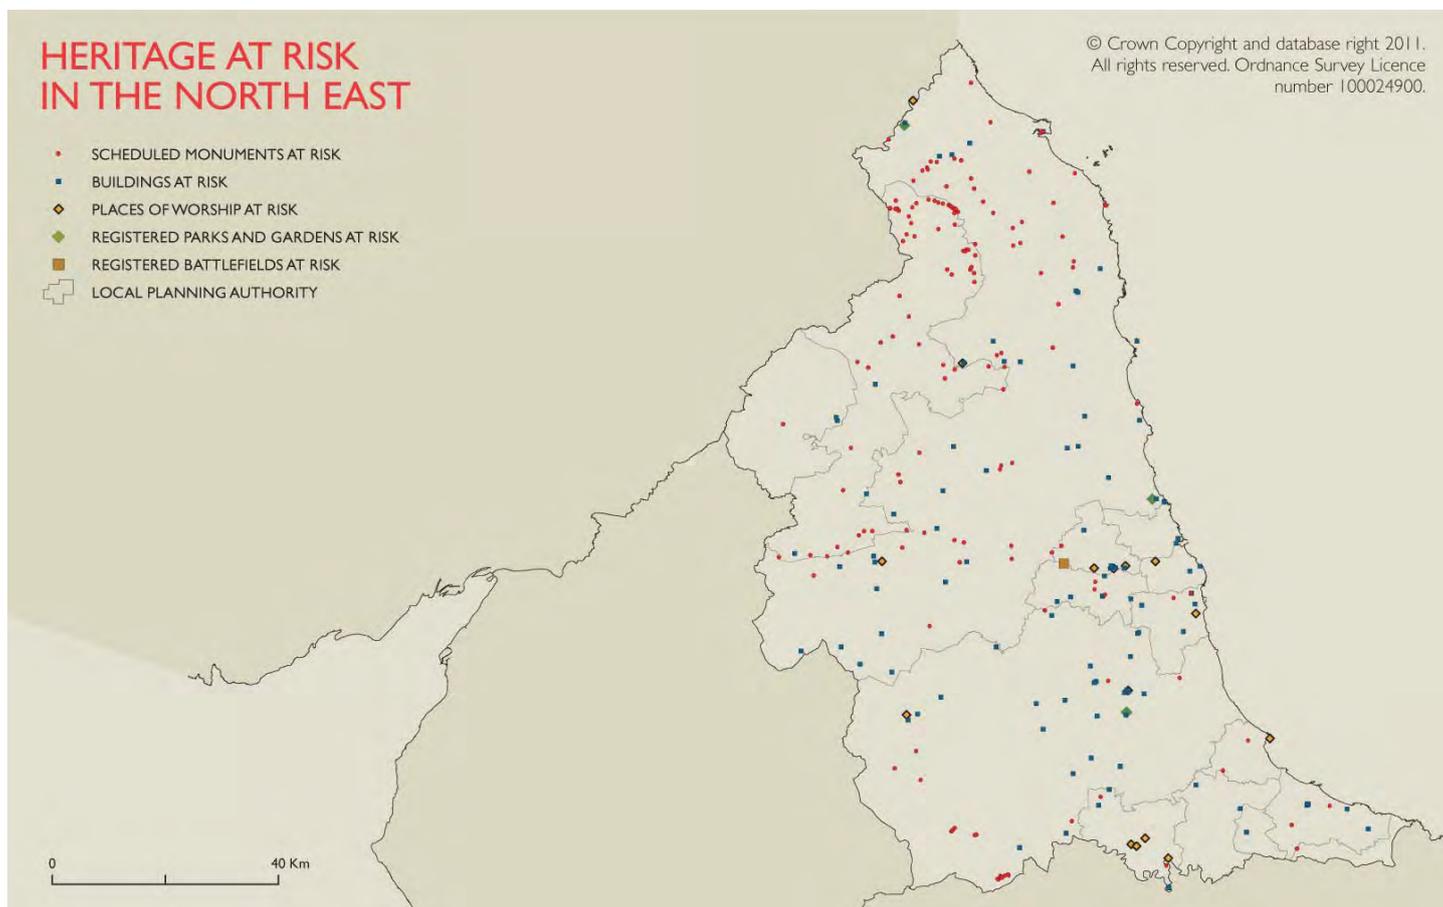

PRIORITY SITES

- Bowes Railway Incline, Birtley, Gateshead
- Greenhouse east of Felton Park with potting shed, Felton Park, Felton, Northumberland
- Harperley Working Camp, WWII POW Camp at Craigside, Wolsingham, County Durham
- Kirkleatham Hall Stables and Landscape (Kirkleatham Hall Stables, Bastion and ha-ha wall north of Kirkleatham Hall Stables, Bastion north west of Kirkleatham Hall Stables, Gate piers at entrance of Kirkleatham Hall School and the, Gatehouse, north east of Kirkleatham Hall), Redcar, Tees Valley
- Monastic cell and medieval tower; Coquet Island, Hauxley, Northumberland
- Prebends' Bridge, Durham and Framwellgate, Durham, County Durham
- Ravensworth Castle, Lamesley (Ravensworth Castle and Nash House), Gateshead
- Sockburn Hall and Church (Sockburn Hall, and the Church of All Saints) Sockburn Lane, Sockburn, Darlington
- Tynemouth Station, Tynemouth, North Tyneside
- Ushaw College, Esh (Chapel of St Michael at College of St Cuthbert, Former Junior Seminary Chapel of St. Aloysius and Bounds Wall), County Durham

Reducing the risks

English Heritage is committed to securing a year-on-year reduction in the number of heritage sites at risk as part of our national plan for the protection of England's historic environment (National Heritage Protection Plan 2011-2015). This will be challenging given the number of assets now on the Register and the different kinds of risk they face. Each asset type and individual case will require its own approach and solution.

There are, however, some general approaches that are relevant to all assets at risk. Resolving cases requires working in close partnership with owners, local planning authorities and other relevant organisations and partners. Advice and understanding are essential. Historic Environment Records, maintained by local authorities, are repositories of information on local historic assets. They underpin the work of local authority historic environment services and can help improve the protection, conservation and management of heritage assets.

Maintenance of heritage assets is essential if they are not to become at risk, and to prevent those that are already at risk from decaying further and thereby escalating the cost of their repair and consolidation. Buildings, for instance, decay rapidly when left empty. Avoiding vacancy through short-term lets or schemes that provide protection through residential occupation are low-cost ways of maintaining buildings until permanent solutions can be found. English Heritage has published guidance for owners on options for maintaining vacant buildings (*Vacant Historic Buildings: An Owner's Guide to Temporary Uses, Maintenance and Mothballing*).

English Heritage provides on-line advice and guidance to local authorities, owners and managers of sites through the Historic Environment Local Management (HELM) website www.helm.org.uk.

LISTED BUILDINGS

Buildings at risk

English Heritage's role in securing the future of buildings at risk is primarily to provide practical advice, guidance and resources to local authorities, owners and developers. Our involvement in cases is determined by the importance of the building and the complexity of the issues. We can help with analysis of the issues, investigation of the feasibility of options and brokering solutions. Although buildings at risk will continue to be a priority for English Heritage repair grants, grant aid is limited in relation to demand. Grants from other public sources, notably the Heritage Lottery Fund, continue to be essential in helping secure the future of buildings at risk.

In very exceptional cases, English Heritage may acquire and repair a particularly important building at risk, where it is clear that the scale and complexity of problems are such that direct involvement is the best way of securing the building's long-term future.

Local authorities have a primary role in protecting the historic environment. The creation of a local heritage at risk register is the first step in tackling neglected buildings in order to assess and monitor the scale of the problem and prioritise resources and action. Local authorities can also take action to secure the preservation of historic buildings through the use of statutory notices. Some local authorities have a successful track record, but generally these powers are under-used. It is essential that local authorities make best use of their powers to secure buildings at risk, to 'stop the rot' and prevent the costs escalating beyond the point where it is economic to repair. For this reason, English Heritage has published revised guidance (*Stopping the Rot*) for local planning authorities on taking action to save historic buildings.

To help local authorities make more frequent and timely use of their statutory powers, English Heritage runs grant schemes to underwrite a significant proportion of the irrecoverable costs involved in serving Urgent Works Notices and Repairs Notices.

Building preservation trusts can be the key to saving many buildings at risk. Some trusts cover geographical areas; others specialise in particular types of building or are formed to save just one building. Determined individuals and trusts have saved numerous buildings at risk, working in partnership with other organisations such as local and national amenity societies, including SAVE Britain's Heritage, the Society for the Protection of Ancient Buildings, the Georgian Group, The Victorian Society and the Twentieth Century Society.

Places of worship at risk

Regular maintenance helps to keep buildings and places of worship in good condition but those that are in poor or very bad condition need help to minimise the risks to both the structure and the contents. Keeping drains and gutters clear so that water is taken away from the building efficiently is the most important thing that congregations can do as it stops small problems in the building fabric developing into unnecessary crises. English Heritage supports the Society for the Protection of Ancient Buildings's *Faith in Maintenance* scheme, giving volunteers practical local training and on-going support. It also encourages the establishment of gutter-clearance projects, enabling congregations to get good quality work done at reasonable prices by reputable contractors.

Where major structural repairs are required, the Repair Grants for Places of Worship scheme helps under resourced buildings in urgent need. The Listed Places of Worship scheme is another source of funding for repairs and maintenance that is available more widely, while local and national charities can offer small grants.

Many congregations wish to adapt and change their places of worship to encourage wider community use alongside worship and faith-focussed events. English Heritage supports the efforts of congregations to keep their places of worship in use wherever possible and welcomes proposals for appropriate new facilities such as kitchens and toilets that are sensitive to the building's special character.

English Heritage is aware of the need for practical, hands-on help to be given to individual congregations and is working with partner organisations to enable this. Support Officers are employed by local denominational groups but part-funded by English Heritage. They give advice and encouragement to congregations so that they can achieve repair projects, develop necessary new facilities or re-engage with the wider community, depending on local circumstances and needs.

SCHEDULED MONUMENTS

The continuing success in reducing the number of monuments at risk, even in difficult economic times, demonstrates the value of the dialogue that the initiative has fostered between English Heritage, owners, managers and other partners. More and more owners and managers of scheduled monuments are addressing their long-term care on a regular basis. Over half of all scheduled monuments are now on land subject to an agreement under Natural England's Environmental Stewardship agri-environment scheme, administered on behalf of Defra. Work in the coming years with Defra and Natural England will concentrate upon ensuring that the right options are being used in

the correct way, maximising the conservation benefits whilst at the same time delivering value for money. We will also work closely with the Heritage Lottery Fund to help identify those important monuments deserving of grant aid for major stabilisation or repair work.

Progress is also reliant upon better understanding. As a result, as part of the National Heritage Protection Plan – which sets out English Heritage's commitment to safeguarding heritage up to 2015 – the Conservation of Scheduled Monuments in Cultivation project will be rolled out nationally from 2011 onwards. The project, already successfully trialled amongst farmers in the East Midlands, will address what is still the biggest threat by far to monuments – their gradual degradation and loss through arable cultivation. Some causes of risk are neither so obvious nor dramatic in their effects however. Heritage at risk shows that unmanaged tree, scrub and bracken growth is the most widespread cause of long term damage to both urban and rural monuments, even if the effects are not as visible or immediately destructive as other processes. Further work will therefore be needed to better understand how these effects can be minimised.

In all cases, however – whether for rural or urban monuments – close co-operation with owners and land managers is still key to making further progress in ever more challenging circumstances.

REGISTERED PARKS AND GARDENS

Inclusion on the *Register of Historic Parks and Gardens of Special Historic Interest* brings no additional statutory controls, but there is a presumption in favour of the conservation of all designated assets in the planning system. The Government's Planning Policy Statement 5 *Planning for the Historic Environment* (PPS 5) and its supporting Practice Guide helps planning authorities to assess and mitigate the impact of development on our irreplaceable heritage of designed landscapes.

English Heritage can engage only with the proposals for change to the highest graded designed landscapes and where the impact on historic significance is greatest. Our landscape architects can help tailor plans and funding packages for individual landscape features as well as strategies for the whole site. We will continue to tackle the skills crisis facing historic parks and gardens through sector-wide initiatives.

English Heritage encourages the development of conservation management plans for registered historic parks and gardens, especially those in multiple ownership. We are keen for bursars and estate teams to use management plans to help conserve important but fragile landscapes in the care of schools, hospitals, hotels and other institutional owners.

REGISTERED BATTLEFIELDS

As with registered parks and gardens, this designation brings no additional statutory controls, but there is a presumption in favour of conservation of registered battlefields in Planning Policy Statement 5.

English Heritage will continue to work with owners to develop management plans for registered sites and, in appropriate cases, contribute towards the cost of management plans. We will develop positive landscape strategies with owners and partners such as Defra. In some circumstances, we may encourage the conversion from arable to pasture of especially sensitive locations to protect battlefield archaeology from the effects of ploughing and as part of a wider drive to prevent unauthorised or damaging metal-detecting.

English Heritage will also continue to encourage greater access to battlefields and improve their amenity value and visitors' appreciation of the impact these historic events had on our development as a nation.

Local authorities can also invite comments from the Battlefields Trust on planning applications affecting the setting of registered sites.

PROTECTED WRECK SITES

At the strategic level, the major sources of risk to designated wreck sites have been identified. In terms of high-priority sites, practical requirements have also been implemented through conservation management plans.

Risks to protected wreck sites can often be reduced through education, provision of marker buoys, or planning policies that take full account of their national importance. However, some sites require significant resources to stabilise their condition or to carry out detailed archaeological assessments of their conservation requirements. Although English Heritage has statutory power to allocate funds to promote the preservation and maintenance of protected wreck sites, its financial resources can solve only a small proportion of the problems.

In spite of the inherent difficulties with caring for this type of site, careful management must be maintained if we are to avoid the loss of wreck sites. It is therefore close co-operation between the owners of protected wreck sites (where known), authorised divers and all organisations charged with care for the marine and coastal environment, that will make the real difference to their long-term survival.

Practical advice on the management of historic wreck sites, whether at the coast-edge or under water, is available from English Heritage (maritime@english-heritage.org.uk) and from www.helm.org.uk

CONSERVATION AREAS

The risks to conservation areas are difficult to address as they cover large areas of land: they include the spaces between buildings and trees as well as buildings and structures and therefore involve many different owners. Looking after them is a responsibility shared by those of us who own homes and businesses in them and those of us whose job it is to manage the spaces between the buildings or make decisions about their future.

The conservation area survey provides us with an understanding of what is particularly affecting the character and appearance of our conservation areas: what is working well or what is putting them at risk. Strong planning policies, guidance and a clear management strategy for individual conservation areas are critical in managing change in these areas. This is difficult at a time when local authorities across the country are reducing the number of staff managing changes in conservation areas. There are, of course, opportunities for members of the local community to engage, either individually or through groups such as civic societies or conservation area advisory committees which are proven to help achieve positive action.

Armed with the information provided by the surveys, we, local authorities and other partners will have the evidence to direct resources much more accurately towards those conservation areas at greatest risk. We will also want to target those with the greatest potential to improve the quality of life and economic prospects of people in the villages, towns and cities of which they are such crucially important components.

Publications and guidance

English Heritage has produced the following publications relating to heritage at risk, including:

Buildings at Risk: a New Strategy (1998)

Caring for Places of Worship 2010 (2010) – a report on the condition of England's listed places of worship and the needs of the congregations

Heritage at Risk 2010

Heritage at Risk: Conservation Areas (2009)

Heritage at Risk 2011 – national report and summaries for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, Yorkshire and the Humber

Heritage at Risk Register 2011 – detailed listings for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, Yorkshire and the Humber can be downloaded from our website or viewed as an interactive database: www.english-heritage.org.uk/risk

Monuments at Risk (2008) – summary of scheduled monuments at risk for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, Yorkshire and the Humber

Protected Wreck Sites at Risk: A Risk Management Handbook (2007)

Saving London: 20 Years of Heritage at Risk in the Capital (2010)

Stopping the Rot: A Guide to Saving Historic Buildings Through Enforcement Action (2011)

The Monuments at Risk initiative 2003–08 (2010)

Vacant Historic Buildings: An Owner's Guide to Temporary Uses, Maintenance and Mothballing (2011)

HERITAGE AT RISK ON THE WEB

To find out more about the Heritage at Risk programme visit www.english-heritage.org.uk/risk where you will find an interactive database providing detailed information on all heritage sites at risk nationally.

For further information about the different classes of designated heritage assets, including listed buildings, scheduled monuments, registered parks and gardens, registered battlefields and protected wreck sites visit the Heritage Protection section of our website www.english-heritage.org.uk/heritageprotection. Details of all nationally designated historic places in England are now available in one place on the National Heritage List for England online database: <http://list.english-heritage.org.uk>

CONSERVATION POLICIES AND GUIDANCE

The following publications are among the numerous helpful guidance documents now available on our website: www.english-heritage.org.uk/publications or www.english-heritage.org.uk/helm

THE REGISTER

Content and criteria

DESIGNATION

All the historic environment matters but there are some elements which warrant extra protection through the planning system. Since 1882, when the first Act protecting ancient monuments and archaeological remains was passed, government has been developing the designation system. Listing emerged from the post-blitz 1940s Planning Acts, and is now applied to about half a million buildings ranging from palaces to street lamps. Almost 20,000 archaeological sites are scheduled, which introduces tight management controls. Some 1,610 designed landscapes are registered, as are 43 battlefields, and 46 wreck sites are protected.

English Heritage, as the government's expert adviser, is responsible for making recommendations – but it is still the Secretary of State at the Department for Culture Media and Sport who makes the decisions on whether a site is designated. Understanding and appreciation develop constantly, which makes keeping the designation base up-to-date a never-ending challenge. While responding to threat-driven cases, we also seek to work strategically. Recent developments have seen a greater striving for openness and transparency in the process of designating a site, and better communication of what makes something special.

Conservation areas are designated locally by local planning authorities. They are areas of special architectural or historic interest the character or appearance of which it is desirable to preserve or enhance.

LISTED BUILDINGS

Definition

A listed building is a building (or structure) that has been designated as being of 'special architectural or historic interest'. The older and rarer a building is, the more likely it is to be listed. Buildings less than 30 years old are listed only if they are of outstanding quality and under threat.

Listed buildings are graded I, II* and II. Grade I and II* are particularly important buildings of outstanding interest; together they amount to 8% of all listed buildings. The remaining 92% are of special interest and are listed grade II.

Entries on the statutory list of buildings of special architectural or historic interest may comprise a number of separate buildings. Formal residential terraces are the most obvious example. Entries on this Register reflect how buildings are grouped and recorded on the statutory list.

Structures can occasionally be both listed as buildings and scheduled as monuments.

Criteria for inclusion on this Register

Buildings (not in use as a public place of worship) considered for inclusion on this Register must be listed grade I or II*, (or grade II in London) or be a structural scheduled monument. Buildings are assessed for inclusion on the basis of condition and, where applicable, occupancy (or use). The condition of buildings on the Register ranges from 'very bad' to 'poor', 'fair' and (occasionally) 'good'. The Register also includes buildings that are vulnerable to becoming at risk because they are empty, under-used or face redundancy without a new use to secure their future.

Occupancy (or use) is noted as 'vacant', 'part occupied', 'occupied', or occasionally, 'unknown'; for many structural monuments, occupancy is not applicable.

Assessing vulnerability in the case of a building in fair condition necessarily involves judgement and discretion. A few buildings on the Register are in good condition, having been repaired or mothballed, but a new use or owner is still to be secured.

Buildings are removed from the Register when they are fully repaired/consolidated, their future secured, and where appropriate, occupied or in use.

Listed places of worship

Places of worship are the largest single group of non-domestic historic buildings still in use primarily for the purpose for which they were built. Their complex development over centuries is a testament to the changes in social, political and liturgical attitudes over time. This reflects the developing mission of congregations and means that they protect a wide range of fittings and furnishings of national and international importance. Their architectural, archaeological, aesthetic and historic significance is outstanding but so too is their value as the record of the endeavours and experiences of individuals and communities.

To date English Heritage has assessed only a small proportion of the 14,500 listed places of worship so the number identified so far as 'at risk' and included on this year's Register is small. In the coming years an increasing number of places of worship will be assessed to identify those that are at risk. Future registers will provide stronger evidence and build up our understanding of the challenges.

Criteria for inclusion on this Register

Places of worship considered for inclusion on this Register must be listed grade I, II* or II and be used as a public place of worship at least six times a year.

Places of worship are assessed on the basis of condition only. If the place of worship is in 'very bad' or 'poor' condition it is added to the Register. Places of worship previously included on the Register may be in any condition category.

Once on the Register, all places of worship can move through the condition categories (e.g. from very bad to poor; to fair; even good) as repairs are implemented and the condition improves, until they are fully repaired and can be removed from the Register.

Priority for action

Once a building is identified as at risk or vulnerable and included on the Register, priority for action is assessed on a scale of A to F, where 'A' is the highest priority for a building which is deteriorating rapidly with no solution to secure its future, and 'F' is the lowest priority where a repair scheme is in progress and an end use has been secured.

SCHEDULED MONUMENTS

Definition

Scheduled monuments include archaeological sites and landscapes, and 19,731 examples have been designated because of their national importance. Scheduled monuments are not graded, and most have limited potential for beneficial use. They cover human activity from the prehistoric era, such as burial mounds, to 20th century military and industrial remains. For the millennia before written history, archaeology is the only testament to innumerable generations of people of whom there is no other record.

The later 20th century saw unprecedented changes to the landscape. As a result, types of historic site that once were commonplace began to become rare. Those that survive often represent just small islands of what once characterised broad sweeps of our towns and countryside. Although protected by law, scheduled monuments are still at risk from a wide range of processes. In particular, they can frequently be exposed to intense pressures beyond the reach of the planning system. These include damage from cultivation, forestry and – often most seriously of all – wholly natural processes such as scrub growth, animal burrowing and erosion.

Criteria for inclusion on this Register

Scheduled monuments included on this Register have been identified as being at risk because of their condition and vulnerability, the trend in their condition, and their likely future vulnerability. A site's condition is expressed in terms of the scale and severity of adverse effects on it, ranging from those with 'extensive significant problems' to others that have only 'minor localised problems'.

Monuments are removed from the Register once sufficient progress has been made to address identified issues, demonstrating a significant reduction in the level of risk.

REGISTERED PARKS AND GARDENS

Definition

There are 1,610 designed landscapes on the current English Heritage *Register of Historic Parks and Gardens of Special Historic Interest*. These registered landscapes are graded I, II* or II, and include private gardens, public parks and other green spaces, country estates and cemeteries. They are valued for their design, diversity and historical importance and in contrast to the number of listed buildings and scheduled monuments, registered parks and gardens is a very small group of assets.

Inclusion on the English Heritage Register of Historic Parks and Gardens brings no additional statutory controls, but there is a presumption in favour of conservation of the designated site. Local authorities are required to consult English Heritage on applications affecting sites registered as grade I or II* and the Garden History Society on sites of all grades.

Criteria for inclusion on this Register

The identification of registered parks and gardens at risk begins with an appraisal of the condition and vulnerability of each registered landscape. Steps being taken by owners to address problems are also taken into consideration.

Landscapes assessed as being at risk are typically affected by development and neglect. They have frequently been altered by development or are faced with major change. The original function of these landscapes has often changed; and divided ownership often results in the loss of the cohesive conservation of the historic designs.

Landscapes are removed from the Register once plans are put in place to address issues and positive progress is being made.

REGISTERED BATTLEFIELDS

Definition

English Heritage's *Register of Historic Battlefields* has identified 43 nationally significant sites ranging in date from 991 to 1685. These are places where people risked their lives fighting for a cause and where history was made. The outcome of these battles was influenced by where they were fought and traces of the events will have been left across the landscape. Battlefields are cherished for many reasons, as a commemoration of the event and those who died, as a resource for understanding the course of the battle, and for the light they can shed on the times in which the battle was fought. They are vulnerable to insensitive development and to poorly managed investigation such as large-scale metal-detecting. While this designation introduces no additional statutory controls, one of its primary objectives is to encourage policies and other mechanisms that ensure that change and development affecting battlefields is sensitive and appropriate.

Criteria for inclusion on this Register

Battlefields deemed to be at risk of loss of historic significance are included on this Register:

The identified risks and threats come from development pressure – for example, because they lie on urban fringes or are subject to development pressures within the site; arable cultivation, and unregulated metal-detecting. One major impact or a combination of several factors can be enough to raise the risk at a particular site.

Battlefields are removed from the Register when either actual damaging activities are reversed or managed, or threats recede due to effective management planning.

PROTECTED WRECK SITES

Definition

England's 46 protected wreck sites represent a tiny proportion of the 32,476 pre-1945 wrecks and recorded casualties that are known to lie in the territorial sea. Wreck sites can be of importance for different reasons: the distinctive design or construction of a ship, the story it can tell about its past, its association with notable people or events, its cargo, flora and fauna or its role as a focus for the local community. The Protection of Wrecks Act 1973 empowers the appropriate Secretary of State to designate a restricted area around a vessel to protect it or its contents from unauthorised interference.

Local authorities are able to react to foreshore infrastructure projects through the planning process, thereby securing the preservation of important remains in this intertidal zone.

Criteria for inclusion on this Register

English Heritage has audited all designated wreck sites to identify those most at risk based on their current condition, vulnerability and the way they are being managed. Wrecks are vulnerable to both environmental and human impacts. Risks that contribute to the inclusion on the Register range from unauthorised access to erosion and fishing damage.

The monitoring process ensures that the significance of the site is identified and maintained.

In spite of the inherent difficulties in caring for this type of site, careful management must be maintained.

Wrecks are removed from the Register once an appropriate management and monitoring regime is operational.

CONSERVATION AREAS

Definition

Conservation areas are designated by local authorities and are areas of special architectural or historic interest the character or appearance of which it is desirable to preserve or enhance. For more than 40 years conservation areas have proved a highly effective mechanism for managing change on an area-wide basis. There are currently some 9,300 conservation areas in England including town and city centres, suburbs, industrial areas, rural landscapes, cemeteries and residential areas. They form the historic backcloth to national and local life and are a crucial component of local identity and community cohesion.

Criteria for inclusion on this Register

English Heritage has asked every local authority in England to complete (and update as appropriate) a survey of its conservation areas, highlighting current condition, threats and trends, identifying those that are deteriorating, or are in very bad or poor condition and are not expected to change significantly in the next three years, as being defined as at risk.

The methodology for assessing conservation areas at risk has been refined since the first survey in 2008/2009. The information collated provides a detailed assessment of each conservation area and an overall category for condition, vulnerability and trend is included for each conservation area on this Register. Conservation areas identified as at risk in 2009, but not reassessed since using the revised methodology, are included on the Register but with more limited information.

Conservation areas are removed from the Register once plans have been put in place to address the issues that led to the conservation area being at risk, and once positive progress is being made.

Key to the entries

This register includes the following heritage assets at risk:

- grade I and II* listed buildings and structural scheduled monuments
- grade I, II* and II listed places of worship
- scheduled monuments
- registered parks and gardens
- registered battlefields (where applicable)
- protected wreck sites (where applicable)
- conservation areas

ORDER

Entries are grouped and ordered alphabetically first by County* or Unitary Authority, and then by Local Planning Authority (Unitary Authority/National Park/District or Borough).

Asset types are grouped within the relevant planning authority in the following order:

- listed buildings and structural scheduled monuments
- places of worship
- scheduled monuments
- registered parks and gardens
- registered battlefields
- conservation areas

Within each asset type, sites are ordered alphabetically by parish, locality, street/site name.

*The sub-region Tees Valley is included to group the following unitary authorities: Darlington, Hartlepool, Middlesbrough, Redcar and Cleveland, Stockton-on-Tees.

DESIGNATION

The principal designation is noted for each entry, and includes:

- Listed Building (LB) grade I, II* or II
- Listed Place of Worship grade I, II* or II
- Scheduled Monument (SM)
- Registered Park and Garden (RPG) grade I, II* or II
- Registered Battlefield
- Conservation Area (CA)

Other designations that apply to buildings at risk and registered parks and gardens at risk, including their location within a World Heritage Site (WHS), are also noted where applicable.

The National Heritage List for England reference number is noted for scheduled monuments.

CONDITION

For buildings (including places of worship) at risk, condition is graded as: 'very bad', 'poor', 'fair' and 'good'.

For sites that cover areas (scheduled monuments, registered parks and gardens, registered battlefields and protected wreck sites) one overall condition category is recorded. The category may relate only to the part of the site or monument that is at risk and not the whole site:

- extensive significant problems
- generally unsatisfactory with major localised problems
- generally satisfactory but with significant localised problems
- generally satisfactory but with minor localised problems
- optimal
- unknown (is noted for a number of scheduled monuments that are below-ground and where their condition cannot be established).

For conservation areas, condition is categorised as: 'very bad', 'poor', 'fair' and 'optimal'.

OCCUPANCY / USE

For buildings (excluding places of worship) that can be occupied or have a use, the main vulnerability is vacancy, or under-use. Occupancy (or use) is noted as follows:

- vacant
- part occupied
- occupied
- unknown
- not applicable

VULNERABILITY

Principal vulnerability is noted for scheduled monuments and may relate only to the part of the monument which is at risk, and include:

- animal burrowing
- arable ploughing
- coastal erosion
- collapse
- deterioration – in need of management
- scrub / tree growth
- visitor erosion.

For registered parks and gardens, registered battlefields, protected wreck sites and conservation areas, vulnerability is noted as high, medium or low.

PRIORITY

For buildings at risk, the following priority categories are used as an indication of trend and as a means of prioritising action:

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.
- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair; but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).
- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

If the priority category has changed since the 2010 Register, the previous category is given in brackets.

TREND

Trend for scheduled monuments, registered parks and gardens, registered battlefields and protected wreck sites may relate only to the part of the site that is at risk and is categorised as:

- declining
- stable
- improving
- unknown

For conservation areas trend is categorised as:

- deteriorating
- deteriorating significantly
- no significant change
- improving
- improving significantly
- unknown

OWNERSHIP

A principal ownership category is given for each entry, although many scheduled monuments, registered parks and gardens, and registered battlefields are in divided ownership. For registered parks and gardens, single or multiple ownership is noted.

CONTACT

This is the member of the English Heritage regional team who acts as a first point of contact for the case, and to whom enquiries should be addressed.

For conservation areas, the contact is the conservation/planning officer at the relevant local planning authority (indicated by 'LPA' on the Register).

We are not in any sense agents for the owners of the sites included, but we will endeavour to put people in touch with them where appropriate.

*Sites that cross LPA boundaries

COUNTY DURHAM (UA)

SITE NAME:	West Mural Tower at Auckland Castle, Auckland Castle Park, Bishop Auckland
DESIGNATION:	Listed Building Grade I, CA, RPG II*
CONDITION:	Very bad
OCCUPANCY:	Vacant
PRIORITY:	A (A)
OWNER TYPE:	Charity

Two-storey viewing tower in the grounds of Auckland Castle. C13, with later alterations. The building requires urgent consolidation works as there is immediate risk of loss of historic fabric.

Contact: Carol Pyrah 0191 2691 202

SITE NAME:	Brancepeth Castle, Brancepeth
DESIGNATION:	Listed Building Grade I, CA, RPG II
CONDITION:	Poor
OCCUPANCY:	Part occupied
PRIORITY:	C (C)
OWNER TYPE:	Private

Brancepeth Castle is a medieval fortress that was greatly enlarged in the C19 by architects John Paterson and, later, Anthony Salvin. It was occupied by the army during World War II and then by glassware makers JA Joblings. Parts of the building are currently lived in and some areas are used as workshops and offices. There is a need for some urgent repairs as well as longer term maintenance.

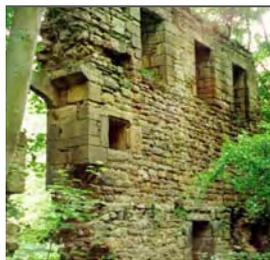

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Hedleyhill Colliery Coke Works, 500m south west of Hazlet House, Brandon and Byshottles
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY:	A (A)
OWNER TYPE:	Private

C18-C19 lines of brick-built coke ovens. Many bricks have been dislodged by livestock sheltering within them. Livestock have also eroded the grassy banks between each oven and established tree growth can be found along the entire structure.

Contact: Rob Young 0191 269 1239

SITE NAME:	Langley Old Hall, Burnhope
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY:	A (A)
OWNER TYPE:	Private

C15 ruin and moated earthwork in mature deciduous woodland. At risk from vandalism. Mature trees grow close by (saplings growing on walls). There is general deterioration so removal of undergrowth and recording are needed urgently. A metric survey of the Old Hall is being prepared as the first stage in a conservation programme.

Contact: Rob Young 0191 269 1239

SITE NAME:	Hamsterley Hall, Hamsterley, Consett
DESIGNATION:	Listed Building Grade II*
CONDITION:	Very bad
OCCUPANCY:	Vacant
PRIORITY:	B (B)
OWNER TYPE:	Private

Mid C18 Gothic country house, possibly with older core. The house also has C19 and C20 additions. The building was saved from dereliction by the previous owners, who also part-restored the front range. However, further deterioration has occurred since then, resulting in the new owners developing a fully costed plan for restoration of the entire building.

Contact: David Farrington 0191 269 1230

SITE NAME:	Church, 50m north-east of Croxdale Hall, Croxdale Hall, Croxdale and Hett
DESIGNATION:	Listed Building Grade I, SM, RPG II*
CONDITION:	Poor
OCCUPANCY:	Vacant
PRIORITY:	C (C)
OWNER TYPE:	Private

Redundant medieval church with nave dating back to late C11 and chancel to late C12. Altered in later centuries but Norman south doorway contains the original door with iron hinges. On the Croxdale Estate and rarely opened up. There is severe damp in the building, both rising damp in the floors and walls and penetrating damp over the chancel arch.

Contact: John Edwards 0191 269 1231

PRIORITY (FOR BUILDINGS)

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.

- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair; but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE:
If the priority category has changed since the 2010 register, the previous category is given in brackets.

SITE NAME:	Monastic Grange at Priory Farm (formerly Hunting Lodge), Muggleswick
DESIGNATION:	Listed Building Grade I, SM
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY:	F (F)
OWNER TYPE:	Private

C13 hunting lodge ruin, with the rubble core eroding from the north and south walls. English Heritage offered a grant in 2009 towards selected urgent repairs and some interpretation. These works were completed in 2010 but further repairs are required on other areas of the site.

Contact: Jenny Lee 0191 384 0114

SITE NAME:	Gateway, Mortham Tower, Rokeby
DESIGNATION:	Listed Building Grade I, RPG II*
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY:	C (C)
OWNER TYPE:	Private

Late medieval gateway to Grade I medieval fortified manor house, set within landscaped Rokeby Park (Grade II* registered). An inspection has revealed structural movement in the gateway.

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Sherburn House Bridge, Sherburn
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY:	A (A)
OWNER TYPE:	Private

Mid-medieval stone bridge, dating from 1335 but upper part rebuilt at unknown later date. Tree growth and water ingress has started to push out masonry, as evidenced by pronounced gaps running throughout the structure. Drainage channels empty adjacent to the bridge abutments and this compounds the ongoing erosion.

Contact: Rob Young 0191 269 1239

SITE NAME:	Brandon Walls Lead Mine, Stanhope
DESIGNATION:	Scheduled Monument
CONDITION:	Poor
OCCUPANCY:	Vacant
PRIORITY:	C (C)
OWNER TYPE:	Private

Recently scheduled mid C19 lead mining complex with some elements in need of conservation action.

Contact: Rob Young 0191 269 1239

SITE NAME:	Middle Level Lead Mine, Greenlaws, Daddry Shield, Stanhope
DESIGNATION:	Listed Building Grade II, SM
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY:	A (A)
OWNER TYPE:	Private

C18 and C19 lead mine suffering from extensive flood damage and erosion problems. Discussions have been held with the owners and potential funding partners over a suitable conservation programme.

Contact: Jenny Lee 0191 384 0114

SITE NAME:	Westgate Primitive Methodist Chapel, Westgate, Stanhope
DESIGNATION:	Listed Building Grade II*, CA
CONDITION:	Poor
OCCUPANCY:	Vacant
PRIORITY:	E (C)
OWNER TYPE:	Trust

Redundant Primitive Methodist chapel, with attached schoolroom, constructed in 1871 to the design of George Race Junior and Atkinson and incorporating parts of an earlier C19 chapel. Roof leaks are causing localised internal damage. English Heritage offered a grant in March 2011 towards a package of investigative works and urgent repairs.

Contact: Kate Wilson 0191 269 1221

PRIORITY (FOR BUILDINGS)

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.

- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair; but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

	<p>SITE NAME: Coke ovens at Inkerman Farm, Tow Law</p> <p>DESIGNATION: Scheduled Monument</p> <p>CONDITION: Poor</p> <p>OCCUPANCY: N/A</p> <p>PRIORITY: C (C)</p> <p>OWNER TYPE: Private</p>	<p>Post-medieval beehive coke ovens. The management of the site was reviewed in 1998 with the involvement of Tow Law Town Council, which had a local heritage initiative. English Heritage grant-aided the consolidation works, excavation and recording of finds. The initial repair programme is complete and half of the site is now open to the public. However, consolidation of the rest of the site is still required.</p> <p>Contact: Rob Young 0191 269 1239</p>
	<p>SITE NAME: Clock Tower, Windlestone Hall, Windlestone</p> <p>DESIGNATION: Listed Building Grade II*, CA, RPG II</p> <p>CONDITION: Poor</p> <p>OCCUPANCY: N/A</p> <p>PRIORITY: C (C)</p> <p>OWNER TYPE: Local authority</p>	<p>Early C19 clock tower and stables gateway by Ignatius Bonomi. Cupola repaired with an English Heritage grant in 1989, but stonework repairs now needed. The Hall was used as a school but was put on the market in 2006. The clock faces have been stolen.</p> <p>Contact: Catherine Dewar 0191 269 1232</p>
	<p>SITE NAME: Windlestone Hall, Windlestone Park, Windlestone</p> <p>DESIGNATION: Listed Building Grade II*, CA, RPG II</p> <p>CONDITION: Poor</p> <p>OCCUPANCY: Vacant</p> <p>PRIORITY: C (C)</p> <p>OWNER TYPE: Local authority</p>	<p>Large house, circa 1835, by Ignatius Bonomi for Sir Robert Johnson Eden. Incorporates an earlier C16 house. Surrounded by gardens and parkland and a cluster of Estate buildings, including stables. Last occupied as a residential school but now vacant. The Hall is showing signs of a lack of maintenance, with some internal water ingress.</p> <p>Contact: Catherine Dewar 0191 269 1232</p>
	<p>SITE NAME: Harperley Working Camp, WWII POW Camp at Craigside, Wolsingham</p> <p>DESIGNATION: Scheduled Monument</p> <p>CONDITION: Very bad</p> <p>OCCUPANCY: Part occupied</p> <p>PRIORITY: B (A)</p> <p>OWNER TYPE: Private</p>	<p>Very rare surviving example of a WWII POW Camp. Used by both German and Italian Prisoners of War. 85% of original buildings in roofed condition. Wall paintings and internal fittings have survived too. Following a series of investigative surveys, a programme of conservation works, funded by English Heritage, will commence in 2011.</p> <p>Contact: Rob Young 0191 269 1239</p>
	<p>SITE NAME: Church of St Cuthbert and presbytery attached, Old Elvet, Durham</p> <p>DESIGNATION: Listed Place of Worship Grade II, CA</p> <p>CONDITION: Poor</p> <p>PRIORITY: C (New entry)</p> <p>OWNER TYPE: Religious organisation</p>	<p>Roman Catholic church and presbytery built 1826-27 in Church Perpendicular style. West tower and Lady Chapel were added in 1869 to the designs of Bonomi. Signs of cracking in the tower masonry and pockets of erosion; the latter probably due to an earlier repair using cementitious repointing mortar. Some repairs are underway on the north elevation of the nave but a wider programme is required to address all of the structural issues.</p> <p>Contact: Kate Wilson 0191 269 1221</p>
	<p>SITE NAME: Church of St John the Baptist, St John's Chapel, Stanhope</p> <p>DESIGNATION: Listed Place of Worship Grade II, CA</p> <p>CONDITION: Poor</p> <p>PRIORITY: D (New entry)</p> <p>OWNER TYPE: Religious organisation</p>	<p>Church built in 1752 on the site of a medieval chapel and extended in 1881-83 by Ewan Christian. Contains an elegant Georgian interior but is suffering from water ingress due to blocked gutters and fall pipes. The roof coverings also need replacing. Structural movement in the tower will be arrested when surface water drainage is repaired. A Heritage Lottery Fund grant of £92k was offered in March 2011 towards repair programme.</p> <p>Contact: Kate Wilson 0191 269 1221</p>

PRIORITY (FOR BUILDINGS)

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.

- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair; but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE:
If the priority category has changed since the 2010 register, the previous category is given in brackets.

DESIGNATION:	Registered Park and Garden Grade II*, also CA, 17 LBs, 2 SMs
CONDITION:	Generally satisfactory but with significant localised problems
VULNERABILITY:	Medium
TREND:	Declining
OWNER TYPE:	Private, single owner

A late C18 walled garden accompanying a country house and set in parkland of early to mid C18 origin. The walled garden and lakes are by the designer Lewis Kennedy. Croxdale Hall has been the seat of the Salvin family since the beginning of the C15. Maintenance of the gardens has fallen back in recent years and the water bodies are in a poor and deteriorating state. The notable "cranked" walls flanking the Orangery are in an advanced state of decay.

NORTHUMBERLAND (UA)

SITE NAME: **Allenheads Lead Ore Works, Allendale**

DESIGNATION: Scheduled Monument

CONDITION: Fair

OCCUPANCY: Vacant

PRIORITY: C (C)

OWNER TYPE: Private

Built in the C19, the Allenheads mine was the largest single lead mine in the North Pennines. Much of the complex is well cared for, but some buildings are not weathertight and are becoming increasingly endangered. A report on the required scope of works has been prepared by English Heritage.

Contact: Kate Wilson 0191 269 1221

SITE NAME: **Holmslinn Lead Mine, 200m south east of Holmes, Sinderhope, Allendale**

DESIGNATION: Scheduled Monument

CONDITION: Very bad

OCCUPANCY: N/A

PRIORITY: D (D)

OWNER TYPE: Private

A series of standing and buried remains of one of four mine shafts in the East Allen valley. The shaft, 70m deep, was dug in 1855. The tower base enclosing the shaft, the engine bed and wheel pit (Grade II listed) is being damaged by tree roots. Parts of the wheel pit collapsed in 2011. A broad repair solution has been agreed but the requisite funding has yet to be found.

Contact: Jenny Lee 0191 384 0114

SITE NAME: **Bondgate Tower, Bondgate Within, Alnwick**

DESIGNATION: Listed Building Grade I, SM, CA

CONDITION: Very bad

OCCUPANCY: Vacant

PRIORITY: A (A)

OWNER TYPE: Private

The east gate of the former town wall, built circa 1450 by the 2nd Earl of Northumberland. Consists of a recessed central portal between two projecting semi-octagonal towers. The main defects relate to damage from high-sided vehicles passing through the central portal. Further impact of a similar nature could cause a serious collapse.

Contact: John Edwards 0191 269 1231

PRIORITY (FOR BUILDINGS)

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.

- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair; but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE:
If the priority category has changed since the 2010 register, the previous category is given in brackets.

SITE NAME:	General Lambert's House, 31 & 33 Narrowgate, Alnwick
DESIGNATION:	Listed Building Grade II*, CA
CONDITION:	Poor
OCCUPANCY:	Vacant
PRIORITY:	A (A)
OWNER TYPE:	Private

Early C19 townhouse in plain ashlar, with three storeys and a basement. Most of the original interior detailing is still present. The building is vacant and deteriorating due to a lack of maintenance. Dry rot is now present in the main body of the building.

Contact: David Farrington 0191 269 1230

SITE NAME:	Coastal artillery battery on Blyth Links, Links Road, Blyth
DESIGNATION:	Listed Building Grade II, SM
CONDITION:	Good
OCCUPANCY:	Part occupied
PRIORITY:	F (F)
OWNER TYPE:	Local authority

Artillery battery built in 1916 to defend the submarine base in Blyth Harbour. An observation post was added and the gun emplacements altered during World War II. The buildings are constructed of concrete and steel and were designed to withstand shelling but were not intended to stand in the long term. EH has part-funded a programme that has repaired several structures on the site but further works are required.

Contact: John Edwards 0191 269 1231

SITE NAME:	Hydraulic Silo, 70m east of Cragend Farmhouse, Cartington
DESIGNATION:	Listed Building Grade II*
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY:	C (C)
OWNER TYPE:	Private

Experimental hydraulic silo (circa 1895) by Lord Armstrong. Linear plan: rectangular silage bay on each side of a taller cross-gabled centre. Interior contains a twin-cylinder hydraulic engine in the basement and turbine on the entrance level. The process proved to be inefficient in terms of manpower and was soon abandoned. The roof and rainwater goods are in a poor condition, leaving the building vulnerable.

Contact: John Edwards 0191 269 1231

SITE NAME:	Ruins of Cartington Castle, Cartington Farm, Cartington
DESIGNATION:	Listed Building Grade I, SM
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY:	B (B)
OWNER TYPE:	Private

Fine fortified manor house. C14 in origin, extensively altered C16 and C17. The ruins were modified in 1887-9 with a partial reconstruction of the south wall of the north tower. The site is in a ruinous condition and in severe risk of collapse, with tree roots a major problem. Needs urgent repairs, although some vegetation was cleared in 2003 and some emergency stabilisation works have been completed.

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Little Swinburne Tower, Little Swinburne, Chollerton
DESIGNATION:	Listed Building Grade II, SM
CONDITION:	Very bad
OCCUPANCY:	Vacant
PRIORITY:	A (A)
OWNER TYPE:	Private

Remote C15 tower house in a poor state of repair. Part of Little Swinburne shrunken medieval village. Surrounded by fallen masonry and in need of urgent attention to prevent further falls.

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Walkers Pottery, West Bottle Kilns, Milkwell Lane, Corbridge
DESIGNATION:	Listed Building Grade II*, SM
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY:	C (C)
OWNER TYPE:	Private

Early C19 bottle kiln. In poor condition, although deterioration is slow and controlled.

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Twizel Medieval Tower House and Folly, Twizel, Duddo
DESIGNATION:	Listed Building Grade II*, SM, RPG II*
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY:	C (C)
OWNER TYPE:	Trust

The present building incorporates the remains of a medieval tower house that was later developed into an C18 folly by Sir Francis Blake. Originally five storeys high, it now stands to three storeys. The site is unmanaged and shows signs of structural instability, including substantial vertical cracks around many of the arches and window openings. Some vegetation removed from site in 2004.

SITE NAME:	Greenhouse east of Felton Park with potting shed, Felton Park, Felton
DESIGNATION:	Listed Building Grade II*
CONDITION:	Very bad
OCCUPANCY:	Vacant
PRIORITY:	C (C)
OWNER TYPE:	Private

Unoccupied greenhouse of circa 1830. In very bad condition. English Heritage has grant-aided repairs to a section of brick wall and parapet above the glasshouse.

Contact: John Edwards 0191 269 1231

SITE NAME:	Ford Castle, Ford
DESIGNATION:	Listed Building Grade I
CONDITION:	Poor
OCCUPANCY:	Part occupied
PRIORITY:	C (New entry)
OWNER TYPE:	Private

Originally a C14 quadrilateral castle with four corner towers, converted to a mansion in 1694 and further altered in 1761 (for John Hussey Delaval) and 1862 (for the Marchioness of Waterford). Now used for residential courses and as a venue for functions. The building is suffering from dry rot, defective masonry, leaking roofs and damaged rainwater goods.

Contact: John Edwards 0191 269 1231

SITE NAME:	Ford Colliery, Ford
DESIGNATION:	Scheduled Monument
CONDITION:	Poor
OCCUPANCY:	Vacant
PRIORITY:	C (D)
OWNER TYPE:	Private

Monument including above and below ground remains of Ford Colliery. Situated on moorland partly on and adjacent to Ford Moss. Colliery worked from at least middle of C17 through to 1914. Site includes the engine house chimney, which requires repairs to its stone base and to loose masonry, and the engine house itself, which has suffered a roof collapse. The walls of the engine house are also starting to collapse.

SITE NAME:	Entrance gates to Hartford Hall, Hartford Bridge, Hartford
DESIGNATION:	Listed Building Grade II*
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY:	A (A)
OWNER TYPE:	Company

Gates made by the Coalbrookdale Company and exhibited at the Vienna Exhibition of 1873. English Heritage offered grant-aid towards the repair of the gates and the works duly started. However, the project is currently on hold whilst complex contractual issues are resolved.

Contact: John Edwards 0191 269 1231

SITE NAME:	Monastic cell and medieval tower, Coquet Island, Hauxley
DESIGNATION:	Listed Building Grade II*, SM
CONDITION:	Poor
OCCUPANCY:	Vacant
PRIORITY:	B (B)
OWNER TYPE:	Private

Site of a monastic cell founded AD684 comprising a domestic range and chapel. It survives as an east-west range of medieval stone buildings incorporated into C19 buildings associated with the island's lighthouse. The site is also an important seabird habitat. English Heritage has offered a grant towards a package of urgent repairs that will commence in late 2011 after the conclusion of the bird-nesting season.

Contact: John Edwards 0191 269 1231

PRIORITY (FOR BUILDINGS)

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.

SITE NAME: **Bastles at Chesterwood,
Haydon Bridge,
Haydon**

DESIGNATION: Scheduled Monument

CONDITION: Poor

OCCUPANCY: N/A

PRIORITY: C (C)

OWNER TYPE: Private

Two defended farmhouses dating from between 1575-1650 in the hamlet of Chesterwood. Both buildings are currently used for general storage but are suffering from major structural problems.

Contact: Jenny Lee 0191 384 0114

SITE NAME: **Langley Barony Mines,
Haydon Bridge,
Haydon**

DESIGNATION: Scheduled Monument, WHS

CONDITION: Very bad

OCCUPANCY: N/A

PRIORITY: C (C)

OWNER TYPE: Private

Unusual steam-powered lead mine complex including, inter alia, an engine house with chimney, smithy, arched adits, bridge, buddle pits, stone-lined stream reservoirs and waste tips. Dates to C19 but was reworked in the 1950s. Deteriorating owing to neglect, tree and shrub growth and rabbit activity.

Contact: Jenny Lee 0191 384 0114

SITE NAME: **Stublick Colliery Beam Engine House,
Langley on Tyne,
Haydon**

DESIGNATION: Listed Building Grade II*, SM

CONDITION: Poor

OCCUPANCY: N/A

PRIORITY: C (C)

OWNER TYPE: Private

The beam engine house is part of the Stublick Colliery site – the finest early C19 group of colliery buildings in the region. Although other grade II* buildings on the site are in fair condition, the engine house is in urgent need of repair. The ground around the colliery buildings was scheduled in November 2003.

Contact: John Edwards 0191 269 1231

SITE NAME: **Cockle Park Tower,
Cockle Park,
Hebron**

DESIGNATION: Listed Building Grade I

CONDITION: Very bad

OCCUPANCY: Vacant

PRIORITY: E (B)

OWNER TYPE: Educational Body

Tower house built early C16, altered C17 and re-fenestrated circa 1790. Vacant and in very bad condition. A condition survey and architectural report were produced in 2006. A comprehensive package of repairs to the tower, part-funded by English Heritage, commenced in 2011.

Contact: John Edwards 0191 269 1231

SITE NAME: **Barn north west of Burncliffe,
Tow House, Bardon Mill,
Henshaw**

DESIGNATION: Listed Building Grade II*

CONDITION: Very bad

OCCUPANCY: Part occupied

PRIORITY: E (A)

OWNER TYPE: Private

An extremely rare example in the county of a heather-thatched cruck barn. Probably C18 but restored in 1989. Rear pitch of barn roof now heavily decayed and this is affecting structural timbers. English Heritage offered a grant in 2010 towards a package of project development works designed to inform a full repair programme. These works started in 2011 and should be completed during 2011/12.

Contact: John Edwards 0191 269 1231

SITE NAME: **Hepple Tower,
Hepple**

DESIGNATION: Listed Building Grade II*

CONDITION: Poor

OCCUPANCY: N/A

PRIORITY: C (C)

OWNER TYPE: Private

C14 ruined tower. The south wall stands to almost 40 feet but the eastern wall collapsed many years ago. The interior walls are around eight feet thick and most of the tunnel vault remains. Now under threat from encroachment by vegetation and there are signs of stone and pointing decay.

Contact: John Edwards 0191 269 1231

PRIORITY (FOR BUILDINGS)

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.

D Slow decay; solution agreed but not yet implemented.

E Under repair or in fair to good repair; but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

F Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE:

If the priority category has changed since the 2010 register, the previous category is given in brackets.

	<p>SITE NAME: Bastle at Horneystead, 400m south west of The Ash, Wark</p> <p>DESIGNATION: Scheduled Monument</p> <p>CONDITION: Very bad</p> <p>OCCUPANCY: N/A</p> <p>PRIORITY: B (B)</p> <p>OWNER TYPE: Private</p>	<p>A defensive farmhouse of the type found only in the northern border counties of England. The walls stand up to 4.5 metres high but the first floor has collapsed on a barrel vault. The main cause for concern was a large tree growing out of the upper courses of the north wall, whose roots were displacing and dislodging original fabric. The tree was removed during 2009 but further consolidation works are required.</p> <p>Contact: Jenny Lee 0191 384 0114</p>
	<p>SITE NAME: Carrshield Lead Mines and Ore Works, Carrshield, West Allen</p> <p>DESIGNATION: Scheduled Monument</p> <p>CONDITION: Very bad</p> <p>OCCUPANCY: N/A</p> <p>PRIORITY: A (A)</p> <p>OWNER TYPE: Private</p>	<p>The remains of two lead mines and an ore works on the base and lower slopes of the West Allen valley at Carrshield. The site was used over three centuries, leaving a complex assortment of remains. The grade II lodging shop is the largest of its kind in the North Pennines but has severe structural damage and parts of the stone wall revetment have collapsed into the river.</p> <p>Contact: Jenny Lee 0191 384 0114</p>
	<p>SITE NAME: Mohopehead Lead Mine and Ore Works, Mohope, West Allen</p> <p>DESIGNATION: Listed Building Grade II, SM</p> <p>CONDITION: Very bad</p> <p>OCCUPANCY: Vacant</p> <p>PRIORITY: A (A)</p> <p>OWNER TYPE: Private</p>	<p>Scheduled lead mine of C18/C19. The mineshop is in a very dangerous condition, with the roof and rear wall collapsing recently. The bouse team is slowly deteriorating and trees are encroaching. Site included within North Pennines AONB management plan and lead mining strategy.</p> <p>Contact: Kate Wilson 0191 269 1221</p>
	<p>SITE NAME: Haydon Old Church, Old Haydon, Haydon</p> <p>DESIGNATION: Listed Place of Worship Grade I</p> <p>CONDITION: Very bad</p> <p>PRIORITY: A (New entry)</p> <p>OWNER TYPE: Religious organisation</p>	<p>Former parish church with C12 chancel and C14 south chapel. Some Roman material has been used amongst the squared stonework and the font is a re-cut Roman altar. Building is in an isolated rural location and used very sporadically. The PCC is considering a case for redundancy. The roof has serious problems, with a heavy build-up of moss holding water and exacerbating the problems caused by water penetration through holes in the roof.</p> <p>Contact: John Edwards 0191 2691231</p>
	<p>SITE NAME: Christ Church, Hepple</p> <p>DESIGNATION: Listed Place of Worship Grade II</p> <p>CONDITION: Poor</p> <p>PRIORITY: D (New entry)</p> <p>OWNER TYPE: Religious organisation</p>	<p>Parish church built in 1897, in Late Perpendicular style, to the designs of C Hodgson Fowler. Font has a C12 bowl on a C19 stem and there are medieval grave markers within the nave. Slate roof coverings have almost reached the end of their useful life, particularly on the north slope, causing leaks. An outline repair programme has been drawn up and the church is building up funding to allow implementation of the repair scheme.</p> <p>Contact: John Edwards 0191 2691231</p>
	<p>SITE NAME: Church of St Cuthbert, Church Lane, Norham</p> <p>DESIGNATION: Listed Place of Worship Grade I, CA</p> <p>CONDITION: Poor</p> <p>PRIORITY: D (New entry)</p> <p>OWNER TYPE: Religious organisation</p>	<p>Parish church built in the late C12, probably by Richard of Wolviston for Bishop Puiset. Eastern bay was added to chancel in early C14, with tower built in 1837 and south porch and aisle by Bonomi erected in 1846. The church is generally in a fair condition but the south aisle and porch roofs are leaking. Heritage Lottery Fund grant of £83,000 was offered in December 2010 towards a repair programme.</p> <p>Contact: John Edwards 0191 2691231</p>

PRIORITY (FOR BUILDINGS)

SITE NAME:	Tillmouth Park, Cornhill-on-Tweed
DESIGNATION:	Registered Park and Garden Grade II*, also 11 LBs, 2 SMs
CONDITION:	Generally satisfactory but with significant localised problems
VULNERABILITY:	High
TREND:	Declining
OWNER TYPE:	Mixed, multiple owners

Early and late C19 picturesque pleasure grounds and formal gardens. The trust-owned Twizel medieval tower house and eye-catcher is on the Heritage at Risk Register. Picturesque walk alongside River Till masked by natural regeneration, some woodland management work undertaken below the castle. Grade II listed bridge over Dean Burn and adjacent tunnel both at risk.

Contact: Andy Wimble 01904 601970

SITE NAME:	Seaton Delaval
DESIGNATION:	Registered Park and Garden Grade II*, also 18 LBs
CONDITION:	Generally satisfactory but with significant localised problems
VULNERABILITY:	Medium
TREND:	Improving
OWNER TYPE:	Corporate, single owner

Remains of an early C18 garden, partially restored in the 1950s-60s, the setting for the house designed by Sir John Vanbrugh in 1719. Approach avenue deteriorating, natural regeneration concealing some key landscape features including the Mausoleum. The Hall and its landscape were acquired by the National Trust in December 2009 and opened to visitors in May 2010.

Contact: Andy Wimble 01904 601970

NORTHUMBERLAND (NP)

SITE NAME:	Hadrian's Wall from Cockmount Hill to Walltown, Greenhead, Tynedale
DESIGNATION:	Scheduled Monument, WHS
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY:	B (B)
OWNER TYPE:	Trust

Sections of unconsolidated Hadrian's Wall (between the track to Cockmount Hill and Walltown Quarry East in Wall Miles 43, 44 and 45). Many of the issues have been addressed through a Higher Level Stewardship (HLS) scheme involving the owner, Natural England and EH. Further sections of the Wall are under different ownerships and attempts will be made during 2011/12 to bring these under a further HLS agreement.

Contact: Mike Collins 0191 269 1212

SITE NAME:	Evistones Deserted Village, Rochester, Tynedale
DESIGNATION:	Scheduled Monument
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY:	C (C)
OWNER TYPE:	Private

Remains of a deserted settlement containing three bastles. One survives to first floor level with a vaulted basement. Small scale consolidation work would stabilise the buildings. Included in Northumberland National Park's survey of bastles. A programme of repair and recording is under discussion.

Contact: Kate Wilson 0191 269 1221

TEES VALLEY**DARLINGTON (UA)**

SITE NAME:	Middridge Grange Farmhouse, Shildon Road, Heighington
DESIGNATION:	Listed Building Grade II*
CONDITION:	Good
OCCUPANCY:	Vacant
PRIORITY:	F (F)
OWNER TYPE:	Private

Farmhouse c1600 with C17, C18 and C19 alterations and extensions. English Heritage offered a significant grant towards a first phase of repairs to the roof and general structural work to make the building stable and weathertight. These works were successfully completed in 2006. A further grant was offered towards internal repairs, which will lead to the building being secured in 2011.

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Dovecote 45m east of Manor House, Houghton Bank Lane, Houghton le Side
DESIGNATION:	Listed Building Grade II*
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY:	C (C)
OWNER TYPE:	Private

Dovecote, probably medieval. Disused and requires roof repairs, repointing and removal of vegetation from walls.

Contact: Rob Young 0191 269 1239

SITE NAME:	Church of All Saints, Sockburn Lane, Sockburn
DESIGNATION:	Listed Building Grade I, SM
CONDITION:	Fair
OCCUPANCY:	Vacant
PRIORITY:	E (D)
OWNER TYPE:	Religious organisation

An important site containing the remains of the church (C13-C15) and a major collection of pre-Conquest stone effigies housed in the nearby Conyers Chapel. The church was abandoned in 1838 and allowed to fall into ruin. Urgent repair works were completed in 2006 with English Heritage grant aid. A second phase of consolidation works was undertaken in 2010, again grant-aided by English Heritage.

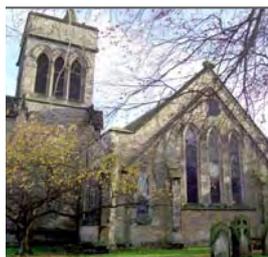

Contact: Rob Young 0191 269 1239

SITE NAME:	Sockburn Hall, Sockburn Lane, Sockburn
DESIGNATION:	Listed Building Grade II*
CONDITION:	Very bad
OCCUPANCY:	Part occupied
PRIORITY:	C (D)
OWNER TYPE:	Private

Country house of 1834 suffering from many years of neglect. Structural problems included floor and roof members collapsing due to rot. The Sockburn Hall Project was established in 2007 and has been effective in mobilising volunteer activity to improve the site. English Heritage offered a grant towards a package of emergency repairs which were completed in 2009. Further project development work is now in progress.

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Church of Holy Trinity, Woodland Road, Darlington
DESIGNATION:	Listed Place of Worship Grade II*, CA
CONDITION:	Very bad
PRIORITY:	C (New entry)
OWNER TYPE:	Religious organisation

Built in 1836-38 by Anthony Salvin, with a chancel and vestry by J Ross added in 1867. The church has historical importance as an early example of the Early English Gothic Revival and its building reflects Darlington's rapid growth at that time. Defective parapet gutters have led to an outbreak of dry-rot and repairs are required urgently. Roof coverings also need attention.

Contact: Kate Wilson 0191 269 1221

PRIORITY (FOR BUILDINGS)

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.

- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair; but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE:

SITE NAME: **Church of St Hilda,
Park Gate,
Darlington**

DESIGNATION: Listed Place of Worship Grade II

CONDITION: Poor

PRIORITY: C (New entry)

OWNER TYPE: Religious organisation

Built (1887-88) in red brick in the Early English style by eminent C19 church architect JL Pearson. The stained glass and interior fittings were removed soon after redundancy in 1986. The church then suffered a fire before being acquired and re-used for worship by the Life and Light Mission. Roof coverings are reaching the end of their life and low level brickwork is in need of repair.

Contact: Kate Wilson 0191 269 1221

SITE NAME: **Church of St Andrew,
Haughton Green,
Haughton le Skerne**

DESIGNATION: Listed Place of Worship Grade I, CA

CONDITION: Poor

PRIORITY: B (New entry)

OWNER TYPE: Religious organisation

An ancient church dating to around 1100 and built on the site of an earlier Saxon church. The building was restored in the C15 and extended in 1795. The interior fittings date to 1662 and are Jacobean in style. High level roof and masonry repairs are required. Heritage Lottery Fund grant of £146,000 was offered in December 2010 towards repair programme.

Contact: Kate Wilson 0191 269 1221

SITE NAME: **Church of St Lawrence,
Church Lane, Middleton One Row,
Middleton St George**

DESIGNATION: Listed Place of Worship Grade II, CA

CONDITION: Very bad

PRIORITY: C (New entry)

OWNER TYPE: Religious organisation

A small parish church of 1871 by JP Pritchett. Contains a stained glass window of 1957 by LC Evetts. Structural defects in the nave and vestry were to be repaired using grant aid but the PCC has also been exploring using another building for worship so the repairs have not been carried out. Recently, the ceiling has been found to be collapsing beneath the overboarding and the church is now closed.

HARTLEPOOL (UA)

SITE NAME: **Church of St Hilda,
High Street,
Hartlepool Headland**

DESIGNATION: Listed Place of Worship Grade I, CA
CONDITION: Poor
PRIORITY: C (New entry)
OWNER TYPE: Religious organisation

Built around 1200 on the site of a C7 monastery, incorporating the remains of an early C12 church. Many Saxon and medieval architectural fragments throughout the church, which has undergone several re-designs and was fully restored between 1925-32. The church is on an exposed site near the sea and the parapets (and other masonry) are open-jointed. In addition to having a spalling roof, the tower has structural issues that are currently under investigation. Contact: Kate Wilson 0191 269 1221

SITE NAME:

Medieval farmstead and irregular open field system at High Burntoft Farm, Elwick

SITE NAME: **Dunston Staiths,
Dunston**

DESIGNATION: Listed Building Grade II, SM

CONDITION: Poor

OCCUPANCY: N/A

PRIORITY: C (C)

OWNER TYPE: Trust

Built by the North Eastern Railway Company and opened in 1893. Closed in the 1970s after being the last working staiths on the River Tyne. Fire damage in November 2003 resulted in 8% of the monument being lost and there was a further fire in July 2010. A Conservation Plan and Feasibility Study to identify a future for the structure have been produced and work continues to try and raise funding for repair works.

OWNER TYPE:	Company

A compact late C17 country house, with later additions. It has service buildings, all set in fine gardens and parkland. The house is vacant and showing signs of roof failure. The building was made weathertight during 2008 in advance of proposed further repairs and restoration designed to bring the house back into beneficial use.

Contact: John Edwards 0191 269 1231

SITE NAME:	Church of St James, Benwell Lane, Benwell
DESIGNATION:	Listed Place of Worship Grade II
CONDITION:	Poor
PRIORITY:	D (New entry)
OWNER TYPE:	Religious organisation

Built as a chapel of ease in 1832, St James became a parish church in 1843. Re-designed in 1864 in a mostly Norman style by John Dobson. Spire, choir vestry and porch were added by Hicks and Charlewood in 1895. Roof coverings are in a bad condition, as are lead valley gutters which run the full length of the building. Heritage Lottery Fund grant of £129,000 was offered in March 2011 towards repair programme.

Contact: John Edwards 0191 2691231

SITE NAME:	Church of St Michael with St Lawrence, Avondale Road, Byker
DESIGNATION:	Listed Place of Worship Grade II
CONDITION:	Poor
PRIORITY:	D (New entry)
OWNER TYPE:	Religious organisation

Parish church built 1862-63 by WL Moffat. North aisle and vestry added in 1936. Repair of roofs and gutters grant-aided in past, but windows now require urgent attention and some areas of flooring are unsound. A repair scheme will form part of a wider programme of reordering to allow greater community use as well as being a place of worship. A £40,000 Heritage Lottery Fund grant was offered in March 2011 towards repair programme.

Contact: John Edwards 0191 2691231

SITE NAME:	Church of All Saints, Pilgrim Street
DESIGNATION:	Listed Place of Worship Grade I, CA
CONDITION:	Poor
PRIORITY:	C (New entry)
OWNER TYPE:	Religious organisation

Built between 1786-96 by David Stephenson to replace a medieval church on same site. Classical style, with baroque tower; All Saints was made redundant by the Church of England in 1961. Building was used as urban studies centre and concert hall but has been reused for worship in recent years by the Church of St Wilibrord. Staining to stonework around rainwater goods indicates leaks and there is evidence of spalling of high level stonework.

NEWCASTLE UPON TYNE / GATESHEAD

SITE NAME:	Battle of Newburn Ford, Ryton / Newburn
DESIGNATION:	Registered Battlefield
CONDITION:	Generally satisfactory but with significant localised problems
VULNERABILITY:	Medium
TREND:	Stable
OWNER TYPE:	Private

The Battle of Newburn Ford (1640) was the only battle of the Second Bishops War. The Scottish Army took Newcastle by defeating the English at this river crossing rather than attacking the northern defences of the city. The effect of the Scottish campaign was to force Charles I to raise an army against them and after the loss of Newcastle, to pay them off. This expense spelt the end for Charles' period of rule without Parliament and proved to be a critical step towards the English Civil War. The battlefield has been subject to piecemeal, peripheral development.

PRIORITY:	F (D)
OWNER TYPE:	Company

Railway station of 1882 by William Bell. The central section is sound and is used operationally as a Metro station and to house a weekend market. However, the flanking areas are unused and in disrepair. The canopies are of ironwork with ornamental spandrels. A scheme to repair the outlying canopies commenced in 2011 following a successful funding award from the "Sea Change" programme.

SITE NAME:	Clifford's Fort, Union Road, North Shields, Tynemouth
DESIGNATION:	Listed Building Grade II*, SM, CA
CONDITION:	Good
OCCUPANCY:	Part occupied
PRIORITY:	F (F)
OWNER TYPE:	Local authority

Fort of 1672, altered in C18 and C20. The curtain wall survives but is masked by later buildings. A Conservation Plan was completed in 2003. Part-funded by English Heritage, a significant programme of consolidation work (including interpretation of the fort walls) commenced in 2008 and this scheme will continue until 2012.

SOUTH TYNESIDE

SITE NAME:	Cleadon Chimney, Cleadon Mill, Sunnyside Lane, Cleadon, Boldon
DESIGNATION:	Listed Building Grade II*, CA
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY:	C (C)
OWNER TYPE:	Company

Large square chimney, detached from boiler house. Built in 1860-62 in Italianate style by Thomas Hawksley. A prominent local landmark and one of a series of pumping stations along the North East coast.

Contact: John Edwards 0191 269 1231

SITE NAME:	Marsden Lime Kilns, South Shields
DESIGNATION:	Scheduled Monument
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY:	C (C)
OWNER TYPE:	Company

Massive C19 industrial kilns of two types. In poor condition and in urgent need of repair. A recording programme has been completed and a programme of conservation works drawn up, with English Heritage grant-aid.

Contact: Kate Wilson 0191 269 1221

PRIORITY (FOR BUILDINGS)

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.

- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair; but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE:
If the priority category has changed since the 2010 register, the previous category is given in brackets.

SITE NAME: **Christ Church,
Grange Road West,
Jarrow**

DESIGNATION: Listed Place of Worship Grade II
CONDITION: Very bad
PRIORITY: B (New entry)
OWNER TYPE: Religious organisation

Parish church of 1868 by Johnson and Hicks in the Early English style. Interior contains a Norman-style font made of Frosterley marble and a Gothic-style altar composed of high quality woodwork. The tip of the tall broach spire is in a dangerous condition and is scheduled to be taken down and rebuilt during 2011. There is also a need for other masonry repairs.

SUNDERLAND

SITE NAME: **Screen Wall
at Monkwearmouth Museum
of Land Transport, Sunderland**

DESIGNATION: Listed Building Grade II*
CONDITION: Poor
OCCUPANCY: N/A
PRIORITY: C (C)
OWNER TYPE: Local authority

Sandstone ashlar high screen wall flanking the former Monkwearmouth Railway Station (North Bridge Street) on a north/south axis. Built in 1848 as a branch terminus for the York, Newcastle & Berwick Railway Co. The station closed in 1981 and is now a museum. The central museum building was recently repaired as part of a major programme of works but the screen wall was not included and remains in a poor condition.

SITE NAME: **Acoustic Mirror at NZ 390 597,
Newcastle Road (west side),
Fulwell, Sunderland**

DESIGNATION: Listed Building Grade II, SM
CONDITION: Poor
OCCUPANCY: N/A
PRIORITY: C (New entry)
OWNER TYPE: Local authority

Acoustic mirror built during World War I to listen for the sound of approaching enemy airships and give warning to the surrounding area. Made of concrete, comprising a shallow dish measuring 15 feet in diameter either side of short ramped walls. The structure is slowly deteriorating, with the face of the concrete dish beginning to fall away.

SITE NAME: **Doxford House,
Warden Law Lane,
Silksworth, Sunderland**

DESIGNATION: Listed Building Grade II*, CA
CONDITION: Very bad
OCCUPANCY: Vacant
PRIORITY: A (D)
OWNER TYPE: Private

Large house (previously known as Silksworth House), formerly used as a students' hall of residence. Mostly of the early C19 but with some earlier features. The property is vacant and is highly vulnerable to theft and arson attacks; a recent fire has caused extensive damage to the conservatory. A re-use scheme has been agreed but has stalled.

Contact: David Farrington 0191 269 1230

SITE NAME: **'F' Pit Museum –
Colliery Engine House,
Albany Way (East side), Washington**

DESIGNATION: Listed Building Grade II, SM
CONDITION: Poor
OCCUPANCY: Part occupied
PRIORITY: C (C)
OWNER TYPE: Local authority

The Engine House was built in 1926, although the pit opened in 1777. The pit closed in 1968 and the Engine House was presented as a monument. It opened as a museum in 1976, being leased to Tyne & Wear Museums Service. However, operational and maintenance costs, coupled with low visitor figures, caused TWMS to cease its operations and the future of the building remains uncertain.

SITE NAME:	Track, Wagon Shop and associated sheds and structures, Bowes Railway, Washington
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	Part occupied
PRIORITY:	B (A)
OWNER TYPE:	Local authority

Sheds and track, part of the Bowes Railway, which opened in 1826. The Blacksmiths, Engineering and Fitting workshops were repaired in 2003/04 but the site remains vulnerable to vandalism and the track bed requires general restoration. Blackham's Hill Hauler House was repaired, part-funded by English Heritage grant aid, in 2009/10 and EH offered another grant in 2011 towards urgent repairs to the Wagon Shop.

SITE NAME:	Guru Gobind Singh Gurdwara Sikh Centre (Formerly Christ Church), Ryhope Road
DESIGNATION:	Listed Place of Worship Grade II, CA
CONDITION:	Very bad
PRIORITY:	C (New entry)
OWNER TYPE:	Religious organisation

Formerly a parish church built in 1862-64 by James Murray of Coventry. The building contains high quality glasswork, including east window by Morris and Co. Church was made redundant by the Church of England but has been acquired by the Sikh community and continues as a place of worship. Spire is in need of urgent repair and currently has temporary protection attached to it. Repairs are also required to roof, rainwater goods and windows.
