UNIGATE site, GODMANCHES TER, Huntingdonshire.

Roman.

	741302 054	741303 062	741304 067	741305 065	741306 066
<u>Triticum spelta L.</u>	12	28	24		14
<u>T.aestivum L. or T.compactum Host.</u>				2	
<u>T.dicoccum Schreb.</u>					2
<u>Hordeum vulgare L.</u>		6	8	5	2

Comment:

12, 28, 24 and 14 would include the occasional T.aestivum or T.compactum wheat and quite possibly T.dicoccum.

Many samples received today state they have been manually cleaned. It is feared that in some cases important plant fragments are lost, which of course, makes it much harder to identify seeds.

J.R.B.Arthur. F.L.S.
