MEDIAEVAL POTTERY FROM SOUTHAMPTON

D.F. Williams, Ph.D., FSA

(HBMC Ceramic Petrology Project)

Department of Archaeology, University of Southampton

Verbal identification of Mediaeval pottery and tile, both local and imported, plus some Roman amphorae, from recent excavations in Southampton, during a visit to the City of Southampton Archaeological Group on 7th July, 1986. Time was also spent on advising on their Mediaeval fabric type series; identification of inclusions and proportions, colour, method of manufacture, form, etc., for their pottery processing.
