Textiles  
Elisabeth Crowfoot

125

Wetwang Slack VI

WS/6/GB 750362. Brooch

On all fragments replaced textile, largest area 2.5 X 3.0 cm, coarse Z,Z, twill, surface deteriorated.

WS/6/ 750364. Brooch

Mass of very deteriorated replaced textile, Z threads.

WS/6/GD 750367. Staple

Replaced fibrous matter, more probably leather than textile.

WS/6/HG 750369. Iron brooch

Replaced fibrous matter, no clear spinning, possibly leather ?

WS/6/HK 750370. Iron brooch, involuted

One side of piece 3, replaced rush or sedge, also on 1, and possible outer fibres of same on 4; perhaps from matting.

WS/6/IV 750371. Iron brooch

Remains replaced very deteriorated textile, spinning Z,Z.

WS/6/KP 750373. Involute brooch

Replaced textile, Z,Z, very coarse fibred, deteriorated on pieces 3 and 1, and very deteriorated on 2 and 4.

WS/6/LN 750374. Brooch

Folds replaced textile, coarse, Z,Z, round brooch, weave too poor for identification, but one system c.6 threads per cm.

WS/6/LO 750375. Brooch

This is covered with deteriorated textile, replaced, probably Z,Z spinning; it might be worth examination after cleaning.

WS/6/MI 750376. Brooch

Very deteriorated replaced textile all along pin and on all pieces, crushed, some Z spun fibres; might possibly be leather.

WS/6/JW 750378. Shaft mount

Area 3.5 X 2.2 and other traces, fibrous replaced matter, probably leather.

WS/6/HM 750379. Bow brooch

Very crushed replaced fibrous traces on several pieces; on one obvious Z spun threads crossing, i.e. Z,Z, textile, so probably all traces are textile rather than leather.

WS/6/IS 767828. Staple

Some very coarse fibred replaced threads, Z spun, lying side by side, i.e. from weave.

WS/6/IP 767829. Brooch

Against one side of head replaced wood; other side very crushed deteriorated replaced fibrous matter, some possible Z spun fibres, but may be leather.

WS/6/KZ 767833. Tweezers

Replaced fibrous matter all along pieces, no visible spin, ?leather.

WS/6/LB 767834. Brooch

Loose fragments, replaced, from coarse Z,Z, four-shed twill, count 3/2-2 plus on 5 mm, i.e. 6/4-5 threads per cm. On curve of head of safety-pin, area 3.3 X 1.7 cm, coarse Z,Z, similar twill, count 5-6/4 per cm; this patch adjoins fragments all along the pin, similar; the weave is so open or deteriorated that the passage of the threads can be seen between the intersections of the other system. Cloak or blanket fastened by brooch.

WS/6/NJ 767835. Brooch

Replaced textile round head, Z,Z, coarse twill, count estimated 4/3 threads per 5 mm.

WS/6/PO 767841. Brooch

Mass of deteriorated replaced fibrous matter, some Z twisted, some S twisted fibres, no weave identified, possibly leather ?

WS/6/QP 767842. Dress pin

Very deteriorated replaced remains textile, coarse, Z,Z, weave indecipherable.

WS/6/QT 767843. Brooch

Replaced textile, very deteriorated, coarse, Z,Z; area 1.5 X 0.8 on round piece has raised or matted surface.
